

GOOD REAL MEN

Issue 10. June 2017

Praise God for an inspiring gathering in Kampong Chhnang at our “Reaching Men for Christ” event. We have visited a group of Kampong Chhnang pastors and Christian workers for 18 months to show them how Jesus Christ can transform men from the inside out.

So much damage to men’s souls has been caused by Cambodia’s violent history and a culture untouched by the gospel. GRM initiate men’s groups to help them understand the gospel and that it is safe to open their hearts to God’s healing love. This event was a challenge to these men to share what they have discovered with others.

We were due to start at 8:00 – but no-one was there! But by 9:00 over 140 had made it, including women who we hope will encourage their men to action.

8:00 where are they?

9:00 full house—thank you Lord!

Our speakers delivered powerful messages inviting men to open up to their heavenly Father. They explained the need to receive healing for their own orphaned hearts caused by the lack of father figures to love, guide & give them identity. We made participants think and discuss how they could impact their communities. Then we urged them to give others the opportunity to receive this freedom & salvation themselves.

Deth interpreting our speakers & Discussion groups give feedback

Good Real Men is spreading!

One of our new leaders in Kampong Chhnang has started 2 groups with his IT students. This is great news. If young men choose to be changed before they have developed bad habits and false ambitions they will be saved many troubles and heartaches in the future.

2 more groups have begun in villages where they have never heard of Christ and his transforming work.

Group 1 – men choose a picture to help them understand and explain the struggles they have experienced.

Group 2 – men drawing pictures to explain their past and present - we then can point them to hope for the future. 3 more men are getting ready to start their own groups very soon.

We also have an invitation from Tbom Kmum – the gospel has been preached there but with no lasting results. A men's group leader can give follow-up and fellowship – to help men on their journey to Christ.

Others in Phnom Penh, Takeo and Kampong Thom have also asked for more information.

We make it clear – we do not provide money, positions or impressive events – we do provide a biblical way of reaching, changing and mobilizing men for Christ. This is the best way to strengthen churches and enable them to grow. If the Holy Spirit is touching their hearts they will respond. We believe those who follow Jesus learn that if we do things his way, God provides what is needed.

Prayer points:

- For the men's group leaders – for confidence and wisdom to lead and enabling of the Holy Spirit to get men to share and help each other.
- For new pastors and contacts who wholeheartedly join with our vision
- For safety in travelling to the provinces
- For Deth's family - protection and health.
- Wisdom and faith for Good Real Men to understand and follow God's leading
